

TELL CONGRESS TO MAKE HEALTH CARE **WORK FOR ALL OF US**

— ★ on the 61st Birthday of Medicaid & Medicare! ★ —

- These programs cover 140 million people of all ages but this year, President Trump's new law leaves little to celebrate. Trump's law will strip over 10 million people of Medicaid, shut down hospitals and devastate patients.
- Under that law, wealthy households and health corporations like hospitals, insurance companies and drug manufacturer get huge tax breaks despite price-gouging patients on premiums, prescriptions and health care services.
- **Enough is enough.** The next Congress must roll back these cuts to healthcare, but they can't stop there. Lawmakers must tackle corporate control over prices to lower costs.

It's our government's duty to finally make health care work for ALL of us, **not just the greedy health corporations and wealthy shareholders.** We need negotiated prices everywhere in healthcare, just like we already have in Medicaid and Medicare.

★

**CALL YOUR
SENATORS AND REPRESENTATIVES TODAY!**

≡ (202) 224-3121 ≡

Tell the politicians we need big reforms to **make health care work better for all of us**, starting with taking away the corporations' power to price-gouge by negotiating prices for everyone.

MAKE HEALTH CARE
