

MAKE HEALTH CARE WORK FOR *All* OF US

For too long, health corporations like hospitals, insurance companies and prescription drug manufacturers have boosted profits by price-gouging patients on their coverage and care. Despite some progress on lowering drug prices, expanding coverage and protecting consumers, too many Americans still face soaring premiums, sky high out of pocket costs, endless phone calls and forms to fill out, as well as delays, denials and long waits or drives to get care. Millions can't get the care they need when they need it.

IT IS OUR GOVERNMENT'S DUTY TO MAKE THE AMERICAN HEALTH CARE SYSTEM WORK BETTER FOR *All* OF US, THAT'S WHY I SUPPORT HEALTH CARE REFORMS THAT:

MAKE OUR HEALTH CARE AFFORDABLE

- Premiums we can afford - and that's it!
 - No more out of pocket costs, deductibles or co-payments.
 - End medical debt

LOWER HEALTH CARE PRICES

- Neogiate a fair price to ensure our care is affordable. No more corporate price-gouging to drive up profits and drive down quality.

GIVE US A CHOICE OTHER THAN PRIVATE INSURANCE

- Everyone can choose a public insurance plan, including Medicare
- A public plan that puts our health care ahead of corporate profits! A plan without the denials and abuses of private insurance.

QUALITY COVERAGE AND REAL ACCESS — WHEN AND WHERE WE NEED IT

- Cover all our health care needs including dental, vision and hearing.
- Doctors, hospitals and other caregivers close to home. Without long waits to get care.

MAKE IT SIMPLE!

- Simplify health care - no more endless phone calls, forms to fill out, delays and denials.
